LOA Vision

“A Professional organization devoted to promoting quality logistics, professional development of logistics officers, and an open forum for leadership, management, and technical interchange.”

Senior Leader Quote: "I like to think of the Logistician as the Air Force coordinator. We make events go off without a hitch and are ready at a moments notice to fix snags. But, it takes time and experience to develop the skills to carry out a flawless mission. LOA brings together the experts and teaches new generations the art of being a logistician. A critical art in today's Expeditionary Air Force."

~1st Lt Victoria Davis, Sandia Chapter President, Kirtland AFB

LOA History: MOA & LOA National Presidents Series: Lt Col Larry Matthews, 1982

Lt Col Larry Matthews is renowned as the founding father of the organization that has become the Logistics Officer Association. As the Maintenance Officer Association's first president, it was largely Lt Col Matthews' vision that motivated the other founding members to recognize the need for and to create a professional development organization for Air Force

maintainers. A core aircraft maintenance officer, Lt Col Matthews led the formulation of MOA and drafted the 1981 Magna Carta that put in place its foundation. To help spread the word, he published the first MOA Newsletter in 1982. Lt Col Matthews' contributions to our beginnings cannot be overstated. By the end of its first year, MOA had resonated so well within the Air Force maintenance community that it had expanded to 6 regions encompassing 3 major commands and included over 50 charter members! Lt Col Matthews' strong conviction and determination to see MOA succeed earn him a special place in MOA and LOA history.
