

# Maintenance Officer Association (MOA)

P.O. Box 2521 • Springfield, Virginia 22152

3 April 1982

MAJ BOB DREWITT

The Maintenance Officer Association (MOA) was formed by a group of USAF maintenance officers in early 1982. Though not affiliated with the USAF, the MOA is committed to enhancing the USAF mission through concentrated efforts to upgrade the image, visibility and promotability of the professional maintenance officer corps.

Membership is restricted to professional maintenance officers who are nominated by a current MOA member and approved by the MOA membership committee. You have been selected to become a member of the MOA. Your name was submitted and your membership was sponsored by LTC LARRY MATTHEWS.

The MOA quarterly newsletter will serve as a forum to keep members abreast of current happenings in the profession, provide feedback/cross-flow from all levels, spread "lessons learned" to fellow members, and provide for a fraternal network to enhance esprit de corps.

Please indicate your acceptance of membership by enclosing a check for the annual dues of \$20, and confirm your present rank and duty assignment. You will then receive membership credentials, a list of members, and current information concerning MOA activities. Also be sure that you include your current home address since MOA matters are not conducted through the USAF distribution system.

Congratulations and welcome aboard!

LTC Larry Matthews  
President
