

The Year-Round Resort of America

Situated on Historic Hampton Roads, Old Point Comfort combines every feature which goes to make up a perfect place of REAL Rest and Recreation.

The Climate is unsurpassed the year round. The sanitation is as complete as the Medical Department of the army can make it. Pure Water, Pure Food, both under government supervision.

The Cuisine of the Chamberlin is perfect; real Southern cooking—fish, crabs, oysters right out of the water.

The Historic Surroundings are absolutely unique. Williamsburg, Jamestown, Yorktown, are right at hand. Fortress Monroe, with "all the pomp and circumstance of war" is our next door neighbor. Hampton Roads, the most magnificent marine panorama in the world, is immediately before us.

For further information and interesting illustrated booklets, address Geo. F. Adams, Manager, Fortress Monroe, Va.

The Chamberlin is not a Sanitarium, but a complete Hotel, with every medicinal bath known to science.

THE POMPAEIAN BATHS AT HOTEL CHAMBERLIN
The sea pool is so perfectly ventilated and radiant with sunlight that you are really bathing out of doors. Filtered sea water is constantly flowing, and the air and water always at an agreeable temperature.

SEA BATHING THE YEAR ROUND

The Medicinal Department is complete in every detail—Nauheim Baths, Electric Cabinets, Massage and Tonic Baths of every description. A most unique feature is that we employ pure sea water in many of them, thus adding to the medicinal feature the very marked benefits derived from the salt of the sea. These are especially recommended for Insomnia, Nervousness, Rheumatism, Gout and kindred disorders.

Special booklet on "Baths and Bathing" sent on request.
