May 12, 1994

Dear Jim:

On behalf of the entire Maintenance Officer Association (MOA) membership, I want to thank you for your outstanding leadership as this year's MOA Convention Chairman. All the folks who attended the convention and to whom I have subsequently talked have had the same comment: this was the best MOA convention ever! That fact is due to your hard work and the support of the entire Tinker MOA Chapter. In recognition of your chapter's efforts, I am pleased to forward the attached check as the Association's way of saying thanks for a job well done. You all have set a standard which will be tough to match! You indeed helped us foster our goals of promoting quality maintenance and maintenance officer professional development.

Thank you again, Jim, for helping make this year's convention the biggest and best ever! Please accept my best wishes for good fortune and unceasing success in your Air Force career. I look forward, as well, to your continued active involvement with MOA.

Sincerely,

Mark B. Roddy, Colonel, USAF  
President  
Maintenance Officer Association
